Eye protection: none except as required in the dental office

Protective gloves: none except as required in the dental office

Other protective clothing

& equipment: none except as required in the dental office

Hygienic work practices: none except as required in the dental office

9. Physical and chemical properties

Physical state: Solid

Appearance and odour: small, tapered, slightly flexible rods of various colors bearing a tuft of synthetic material at the apex. No detectable odour.

Boiling point: Not available

Vapor pressure: Not available

Vapor density: Not available

Solubility in water: Not available

Specific gravity: greater than 1.0

Melting point: Not available

Evaporation rate: Not available

Water reactive: No

10. Stability and reactivity

Stable

Conditions to avoid: none known when used as intended

Materials to avoid: none known when used as intended

11. Toxicological information

There is no data available.

12. Ecological information

There is no data available.

13. Disposal considerations

Hazardous polymerization: will not occur

14. Transport information

Land - road/railway - Sea:

Special provisions: Not available.

Marine pollutant: No.

Special provisions: Not available.

This product is not regulated for carriage according to ADR/RID, IMDG, ICAO/IATA.

15. Regulatory information

EU regulations: The product is determined as not being dangerous according to the requirements of the DPD.

Risk phrases: This product is not classified according to EU legislation.

16. Other information

Notice to reader:

These information are based on our knowledge up to today.

They refer exclusively to the above mentioned products and don't stand for guarantee of quality.

End user is supposed to make sure that information are complete and suitable to any particular use they are appointed.
